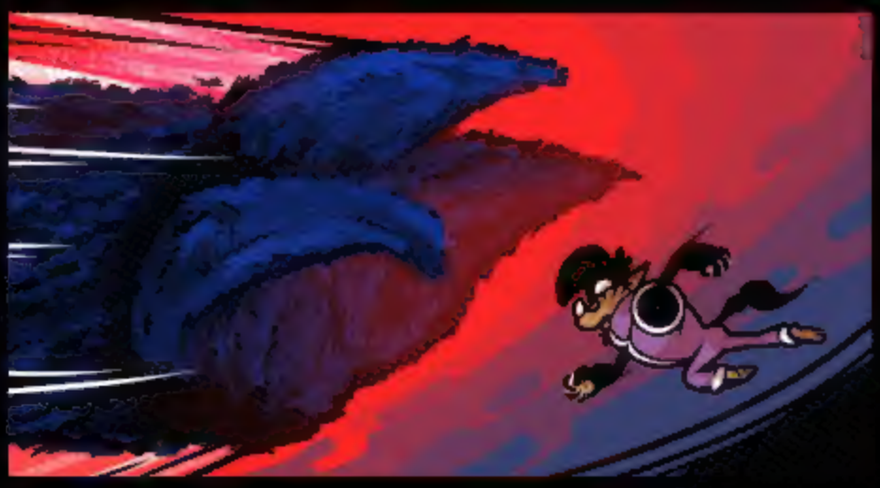
Uhhh Toma are you sure this is the direction you should be running!?

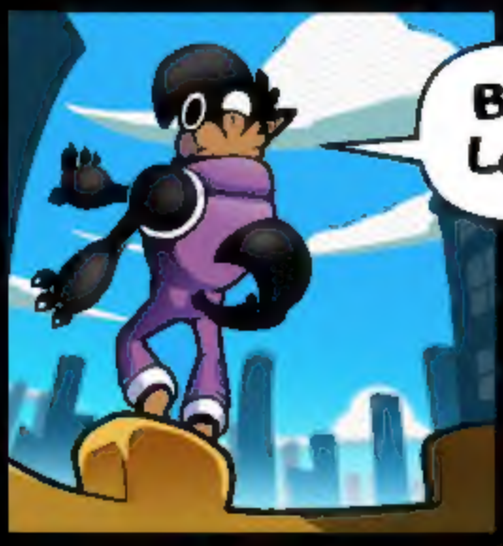


There's no way he learned!

SCREEEEEEEEEEEEEEEE!

CRASH!

You know I really believe in the power of Inkbolt, but if you're in danger... then Parmesan...



What? It's all just rats!

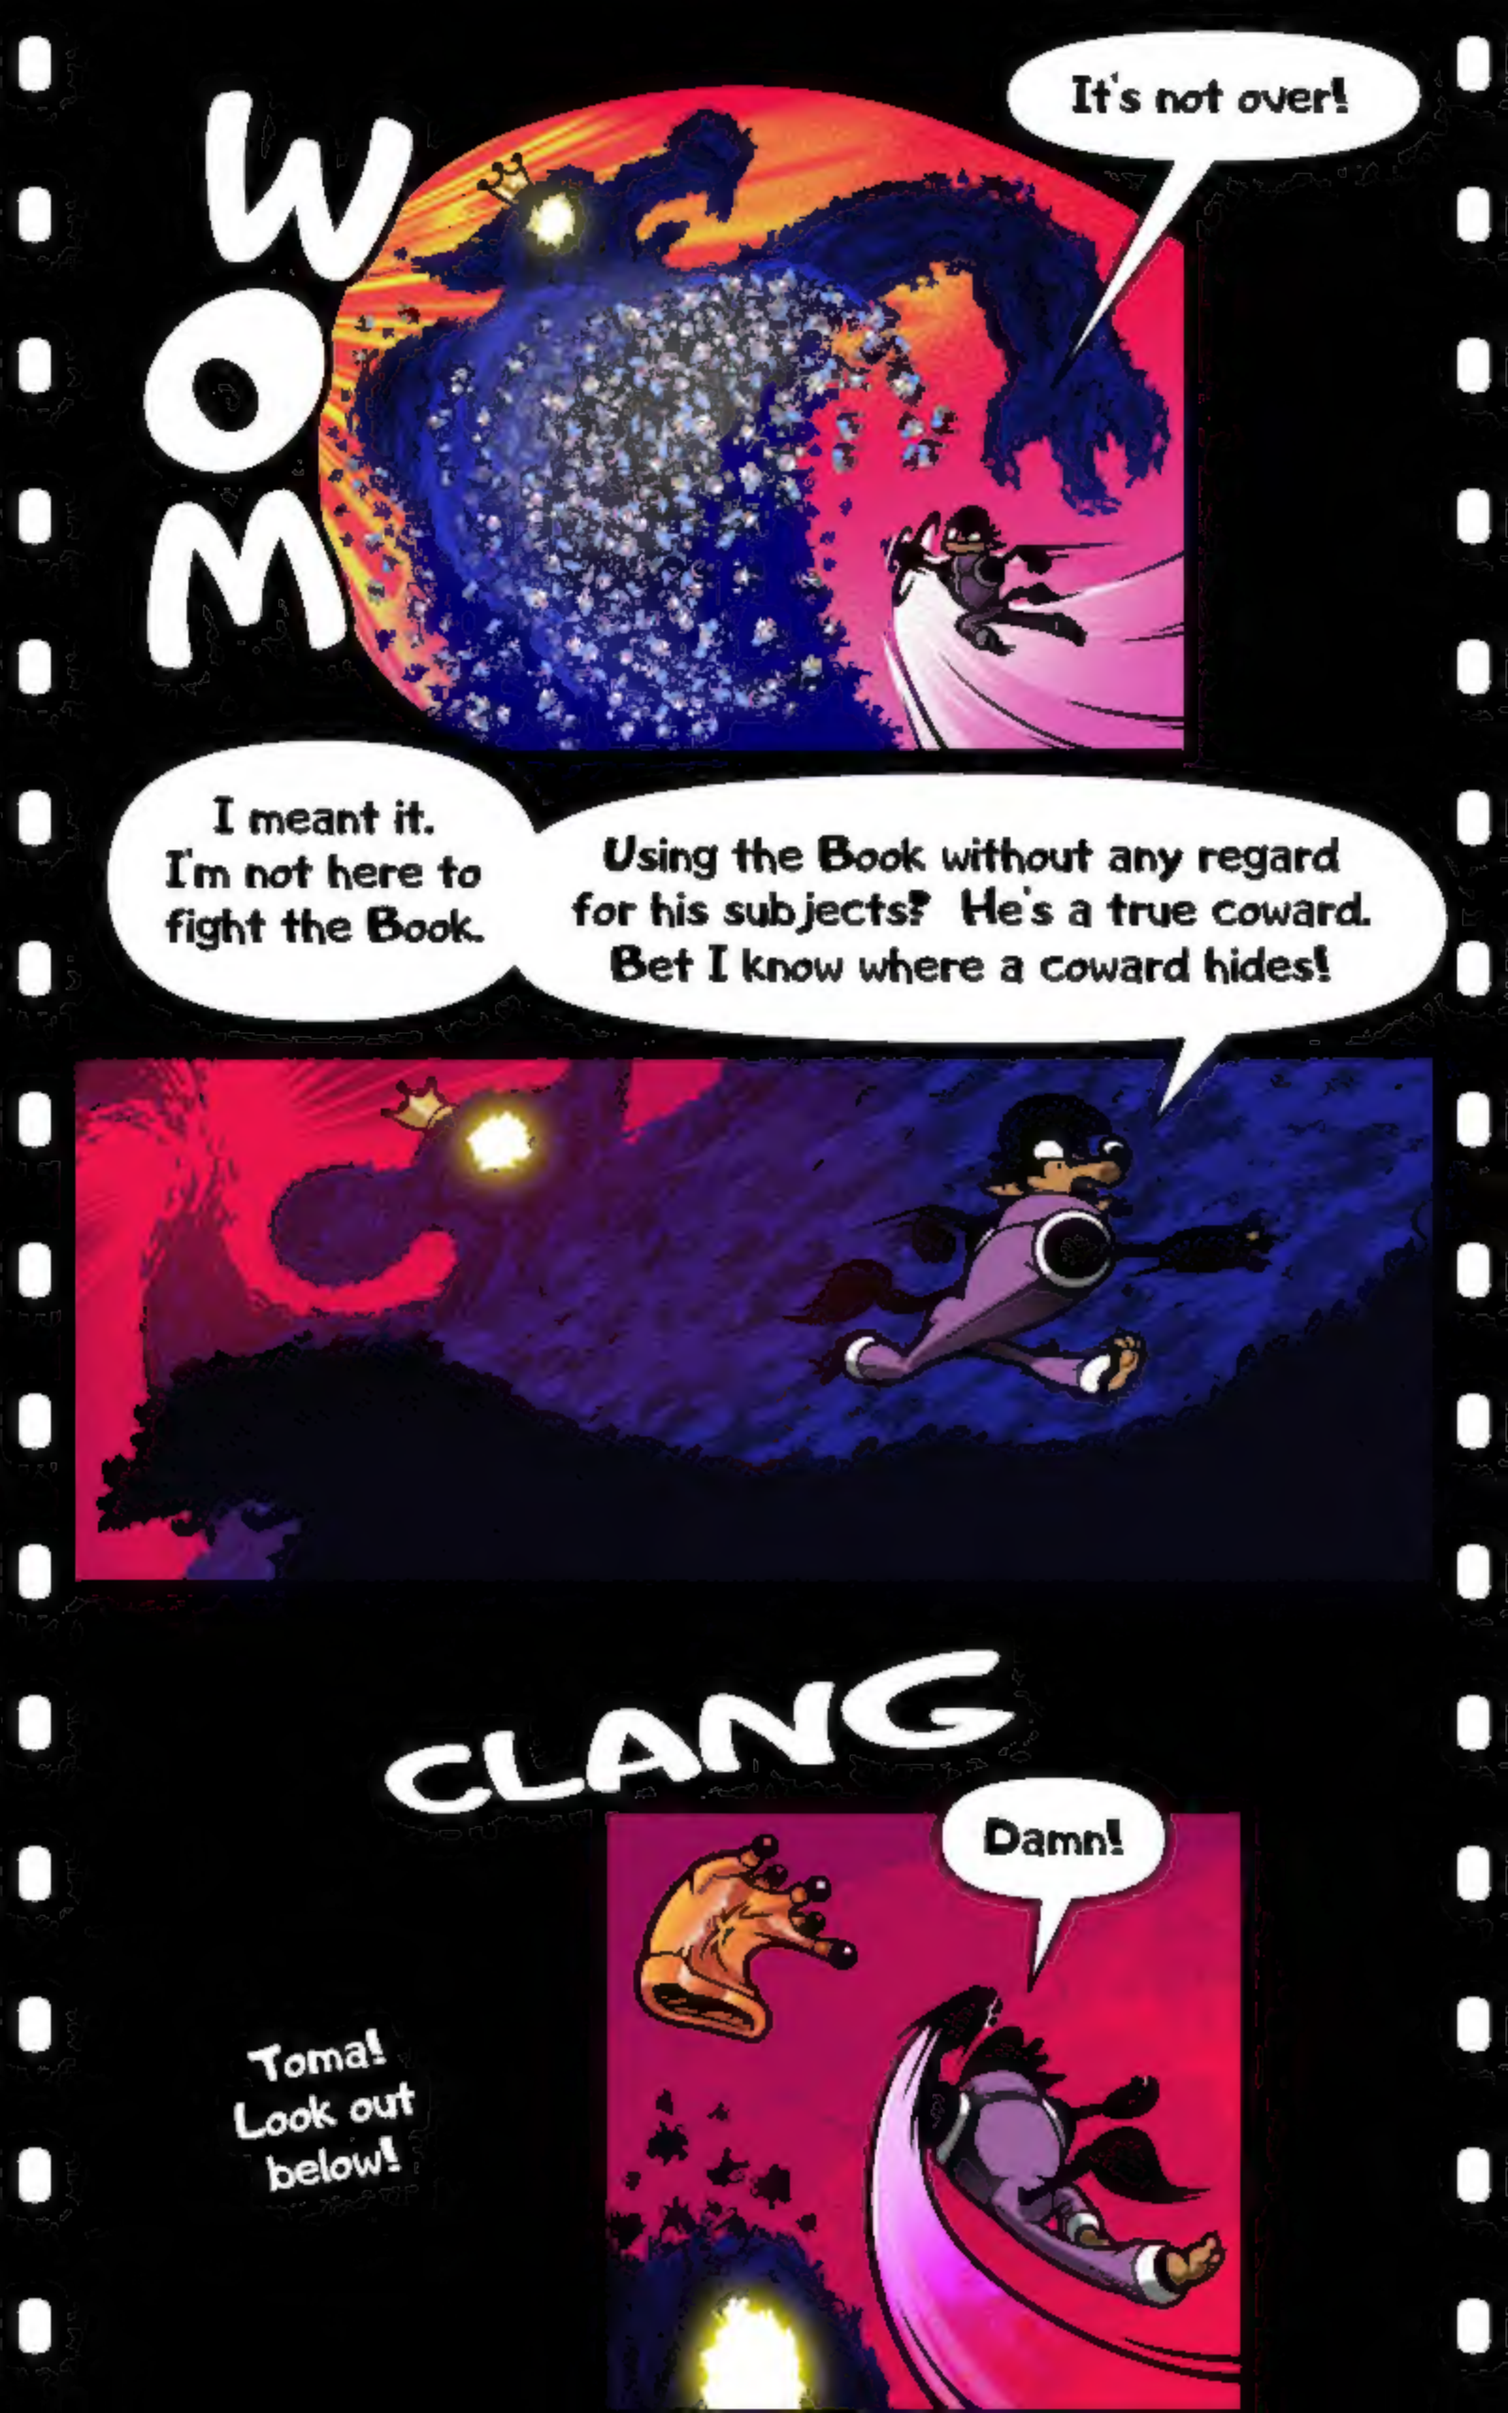
Exactly, rats everywhere! Look at how easy they're falling out of formation.

And that means?

It's sloppy! The kind of sloppiness that would come with a lazy rat king who never put in the hours of study and practice that Trudy would!

And so you mean...

...that SOME of the stuff from the comics is still going to ring true! If I'm right...



WOW
It's not over!
I meant it. I'm not here to fight the Book.
Using the Book without any regard for his subjects? He's a true coward. Bet I know where a coward hides!
CLANG
Damn!
Toma! Look out below!
